Federal Template

**JW Lazzari,**  
Director of Student Services

“The best thing about working in a community college is our students! Community College students are diverse, unique, and are full of grit! Connecting with these students on a daily basis, inspires us all to do better.”

## Reasons We Switched

- WNC had a home grown tool that didn't provide any value to students. It was clunky and not user friendly.
- Selecting a new NPC helped us meet the requirements and offer a tool that was useful and better than we could build on our own.
- Meadow was modern, user friendly and just what we were looking for.

## Impact of Meadow

- Clear and concise information helps students understand direct and indirect costs.
- It meets today's students' expectations for what a modern digital tool should be.
- Meadow's team is easy to work with team which allows our college staff to meet with students and not be stuck working on refining web resources!
